RS 5

Audi Sport

The new Audi RS 5 Coupé

Speed isn't everything.

It's a car that powers from 0–100 kmph in just 3.9 seconds – yet there's much more to the new Audi RS 5 Coupé than speed alone. To appreciate what that means, you have to take the wheel for yourself. From the grip of quattro all-wheel drive to the stopping power of the RS brake system, you'll find that every feature is as finely tuned as the new 2.9-litre V6 engine.

The **Exterior**

A new design, with hints of the past.

The RS 5 Coupé represents the next generation of RS design, inspired by the legendary Audi 90 quattro IMSA GTO: the four-door race car that broke the mould. With its large air inlets, pronounced wheel arches and low, wide shape, it tells the story of our motorsport heritage in every design line.

Performance

Power when you need it most

Beneath the sleek lines of the RS 5 Coupé lies a twin-turbocharged 2.9-litre V6 TFSI engine. Its lightweight design is one of the reasons why this car is lighter than its predecessor – making for enhanced agility and efficiency. Yet the engine still delivers 450PS and 600 Nm of torque, channelled precisely to all four wheels.

The **Interior**

Race-inspired. Driver-focused.

Subtle yet luxurious, performance-oriented yet supremely comfortable. One look into the cabin of the RS 5 Coupé and the idea of getting behind the wheel becomes even more inviting. Everything, from the fine contours of the RS Sport seats to the sweep of the dashboard, comes in dark, understated tones – which you can accentuate with a range of optional inlays.

Technology

Intelligent features. Intuitive control.

The RS 5 Coupé puts our latest innovations at your fingertips, including the Audi Virtual Cockpit that comes as standard. True to its name, it acts as the car's nerve centre and updates you with data like current torque and g-forces, while our Smartphone Interface lets you access your mobile with your steering wheel or voice commands. And so that you always have the latest maps available, we've incorporated MMI Navigation Plus, which you can easily control via a central touchpad.

Vorsprung durch Technik

Not just a slogan. A philosophy.

Progress. It's behind everything we do at Audi. It's why, in the new Audi RS 5, we've incorporated new technologies to help you on the road and engines to deliver impressive performance.

The Audi RS 5 is the embodiment of our forward-thinking approach.

Engine

Peak performance.

It's something never-before-seen in any Audi. The 2.9-litre V6 engine in the RS 5 Coupé has been built from the ground up by Audi engineers, specifically to get the most from our performance model.
The results speak for themselves: 450PS, 600 Nm, 0-100 kmph: 3.9 sec.

quattro

Driving confidence, whatever the weather.

Loose gravel. Icy patches. A tight bend in the rain. Conditions on the road are always changing, so quattro changes too. Standard on RS 5 Coupé, it analyses your grip – automatically distributing power between all four wheels to where it's needed most. It's made for the most challenging conditions of all – the ones you encounter every day.

Illuminating features.

The Audi RS 5's Matrix LED headlights produce a light similar in colour to daylight. They also incorporate sensors and an inbuilt camera that detects other road users, as well as ambient light in built-up areas. They then react by dipping individual LEDs to reduce the risk of dazzling other road users, while still fully illuminating the remainder of the road.

Matrix LED lights

Virtual cockpit

Customisable control.

The information you need is always changing, so the Audi Virtual Cockpit changes too. It replaces the traditional dashboard with a high-resolution, 31.2 cms LCD screen, which you can customise by pressing the ‘view’ button on the multi-function steering wheel.

Choose the ‘classic’ view, with prominent speedometer and rev counter, or the ‘infotainment’ view, which brings functions such as the navigation map or media to the fore – with crisp 3D graphics and highly detailed effects.

Everything you need to know right in front of you: it’s the embodiment of Vorsprung durch Technik.

Your **colour**

Express your individuality with a choice of standard colours.
